What are three types of animals that live in the water?

Question 3

Which of these objects will roll down a ramp? Circle your answers.

celebration of science, technology, engineering and maths (STEM), which happens once a year. It is one of the biggest national science celebrations.

Each year, over one million people take part in fun, scientific activities across the UK. The event is organised by the British Science Association. Their aim is to support everyone with taking part in scientific experiments or discoveries. It is hoped that this will spark an interest in science which may encourage children to take up a job in science when they are older.

This year, the theme for British Science Week is 'Innovating for the Future'. This theme was chosen because innovation is all around us. It's a part of people, animals, nature, materials and everything else in our everyday lives.

Match the words to their definitions.
